Abrazadera U de acoplamiento (39385A1) en modelos en línea.

U-joint coupling end yoke (39385A1) used on older in-line models.

**USO DE MODELOS ANTIGUOS DE COLAS EN MODELOS MERCURUISER IR-IMR**  
Mercury Marine no recomienda el uso de colas de modelos antiguos en modelos IR-IMR, ya que estas unidades no se acoplarán satisfactoriamente con el ensamblaje del transom. Además, las unidades en serie del modelo anterior, están equipadas con una horquilla de acoplamiento de unión en U (39385A1). Este eje es más corto que el (59830A1) usado en las unidades de impulsión de popa IR-IMR, y por lo tanto no acoplará completamente las estrías del motor. El uso del modelo más antiguo en un modelo de IR-IMR llevará al fallo de spline para acoplar al eje.

**USE OF OLDER MODEL STERN DRIVE UNITS ON MERCURUISER IR-IMR MODELS**  
Mercury Marine does not recommend the use of older model stern drive units on IR-IMR models, as these units will not mate up satisfactorily with the transom assembly. In addition, the older model in-line stern drive units are equipped with U-joint coupling end yoke (39385A1). This yoke is shorter than yoke (59830A1) used on the IR-IMR stern drive units, and therefore will not fully engage the engine coupler splines. Use of an older in-line model stern drive unit on a IR-IMR model will result in a spline failure to coupling an/or yoke.
